Advanced imaging and intuitive guidance¹

The Artis **zeego** imaging chain enables a range of advanced applications – from cross-sectional imaging of soft tissue at tableside to advanced guidance tools including an integrated crosshair laser light – that allow interventional clinicians to

This image shows a blank sheet of white paper with horizontal ruling lines. There are two solid blue horizontal bars, one at the top and one at the bottom, which serve as headers or footers. The central area between these bars is filled with evenly spaced, light blue horizontal lines for writing. The paper appears to be a standard notebook page.
